VISION·2

Vision2 is a privately held comprehensive giving solution for churches that engages givers with tailored giving experiences and acknowledgments; elevates ministry with unparalleled efficiency for your support staff; and enables leadership with analytics and reporting tools.

OnlineGiving

Online Giving is a digital giving platform initially built exclusively for Evangelical churches using MinistryPlatform. The platform handles credit card and ACH, but no paper gifts.

Choosing a Church Giving Platform

Selecting the best online giving software for your church is one of the most important decisions you will make for your future growth. We know it can also be confusing, time-consuming, and all-around exasperating.

Our mission is making giving management simpler and more effective for churches …. and that starts with the selection process. So this short summary contrasts only the key differentiators in our approaches.

How does it **engage** your givers?

How does it **enable** your leaders?

How does it **elevate** your ministry?
