

VISION•2

Vision2 is a privately-held comprehensive giving solution for Catholic parishes and dioceses that engages givers with tailored giving experiences and acknowledgments; elevates ministry with unparalleled efficiency for your support staff; and enables leadership with analytics and reporting tools.

WeShare is a giving platform that serves the Catholic market. In 2021, it was acquired by MinistryBrands, an aggregator of faith-based software solutions.

Choosing a Church Giving Platform

Selecting the best online giving software for your church is one of the most important decisions you will make for your future growth. We know it can also be confusing, time-consuming, and all-around exasperating.

Our mission is making giving management simpler and more effective for churches and that starts with the selection process. So this short summary contrasts only the key differentiators in our approaches.

How does it **engage** your givers?

How does it **enable** your leaders?

How does it **elevate** your ministry?

How We Compare

ENGAGING GIVERS Media-rich giving experience that conveys impact and sends customized acknowledgments Givers stay on church's website	True	True Some experiences include text and imagery, but acknowledgments are transactional, no customization
	True	False Pushed to WeShare branded site

ENGAGING GIVERS	Household giving statements	True Including cash, stock, and checks	False
	Simple and quick refund process	True	False Requires manual ticket, delivered via paper check weeks later
	True integration with major ChMS'	True	False
EMPOWERING THE BACK OFFICE	Customizable at the parish level	True Flexible configuration for data sharing and donor reporting	False
	Donor data roll-up reporting to diocese	True	False
	Detailed subledger with GL output that feeds into most accounting systems	True The only giving platform with a subledger	False
	Free implementation, successful migration of recurring giving	True Migration success rate of 95-98%	False
